My dog has been having trouble sleeping at night for the past few weeks. I've tried everything I can think of, but nothing seems to work. I'm really worried about his health and I don't know what to do next. Can anyone help?

My dog Jerry went to Spain with me last week. It was a fantastic trip and he had a great time. He met some other dogs and made some new friends. I was really happy to see him so happy and healthy. It was a great experience for both of us.
